PART 340—MINIMUM PRICE SCHEDULE, DISTRICT NO. 20

ORDER GRANTING RELIEF

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of Utah Blue Diamond Coal Company for the establishment of price classifications and minimum prices for the coals of the Utah Blue Diamond Mine for shipment by Rail.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of the Utah Blue Diamond Mine, Mine Index No. 178, of the Utah Blue Diamond Coal Company, located in Subdistrict 1 in District No. 20; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the aboveentitled matter; and

The following action being deemed necessary in order to effectuate the pur-

poses of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows:
Commencing forthwith, § 340.4 (Code member price index) is amended by adding thereto Supplement R, which supplement is hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be

filed with the Division within forty-five (45) days from the date of this order, pursuant to the rules and regulations governing practice and procedure before the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

Petitioner requests the establishment of minimum rail prices of \$3.75 and \$2.65 per ton f. o. b. the mine for the coals of the Utah Blue Diamond Mine in Size Groups 3 and 15, respectively, stating that these prices have been heretofore established and are presently in effect in those size groups for comparable coals produced by other mines in Subdistrict 1 in District No. 20. However, reference to the Schedule of Effective Minimum Prices for District No. 20 for All Shipments discloses that the minimum prices in effect for rail shipments of comparable coals produced in Subdistrict 1 in Size Groups 3 and 15 vary according to the market area to which the coal is shipped, and that the minimum prices requested by petitioner for its coals in Size Groups 3 and 15 are substantially in excess of the minimum prices in effect for comparable coals in those size groups produced in Subdistrict 1. Accordingly, the minimum prices designated in the attached schedule marked Supplement R for the coals of the Utah Blue Diamond Mine in Size Groups 3 and 15 have been conformed to those prices heretofore established and presently in effect for comparable coals produced by other mines in Subdistrict 1.

[Suspension Order S-151, Amendment 1]

CHARLES MANOOG CO., INC.

Charles Manoog Co., Inc., 53 Chandler Street, Worcester, Massachusetts, has appealed from the provisions of Suspension Order No. S-151, issued November 23, 1942. PART 1010—SUSPENSION ORDERS [Suspension Order 8-277]

ROBERT G. SYMINGTON

Robert G. Symington is an individual residing at 104 South Seventh Street, Las Vegas, Nevada.

Subsequent to September 7, 1942, Robert G. Symington began construction without the authorization of the Director General for Operations of the War Production Board, and ordered, purchased and withdrew from inventory materials to begin construction in connection with the erection of a second story addition to his duplex residence located at 104 South Seventh Street, Las Vegas, Nevada. The estimated cost of said construction exceeded \$200.00 and the construction constituted a violation of Conservation Order L-41. At the time this construction was undertaken. Robert G. Symington was familiar with

the provisions of Conservation Order L-41.

The beginning of this construction by Robert G. Symington constituted a wilful violation of Conservation Order L-41 which has hampered and impeded the war effort of the United States. In view of the foregoing facts, It is hereby ordered. That:

§ 1010.277 Suspension Order No. S-277. (a) Neither Robert G. Symington, his successors or assigns, nor any other person, shall order, purchase, accept delivery of, withdraw from inventory or in any manner secure or use material or construction plant in order to continue or complete construction of the remodeling of the premises situated at 104 South Seventh Street, Las Vegas, Nevada, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Robert G. Symington from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board except in so far as the same may be inconsistent with the pro-

visions hereof.

(c) This order shall take effect on May 14, 1943.

Issued this 12th day of May 1943.

PART 1010—SUSPENSION ORDERS
[Suspension Order S-290, Amendment 1]
ARTISTIC BRONZE TABLET CO., INC.

Artistic Bronze Tablet Co., Inc. of Brooklyn, New York, has appealed to the War Production Board for relief from the terms of Suspension Order S-290, issued April 22, 1943. It now appears that, since the Compliance meeting took place, this company has obtained orders from the Wright Aeronautical Corporation, a division of Curtis-Wright Corporation, all of which bear high ratings. In view of the foregoing, paragraph (a) of § 1010.290, Suspension Order S-290 issued April 22, 1943 is hereby amended to

read as follows:

(a) Deliveries of material to Artistic Bronze Tablet Company, Inc., its successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be applied or assigned to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, and any other order or regulation of the War Production Board except as hereafter specifically authorized by the War Production Board: Provided, That the provisions of this paragraph shall not apply to deliveries of material required by Artistic Bronze Tablet Co., Inc. to fill orders bearing a preference rating of AA-3 or higher,

PART 1010—SUSPENSION ORDERS [Suspension Order S-307]

LITTLE RIVER SAND AND GRAVEL DEVELOPMENT

The Little River Sand & Gravel Development, a partnership composed of Sidney G. Myers, Joseph G. Sellwood, and Richard M. Sellwood, Jr., with an office at 530 Giddens-Lane Building, Shreveport, Louisiana, operates machinery producing sand and gravel from Little River, Arkansas. The gravel is produced by dredge and is loaded on barges and transported to respondent's plant where it is processed. On February 19, 1943, the Kansas City Southern Railway Company extended a preference rating of A-1-j to the partnership for its products; the partnership extended this rating to obtain 30,964 pounds of steel valued at approximately \$1,400.00, in order to construct a new steel barge and tugboat to be used for transporting gravel. This extension was in violation of Priorities Regulation No. 3. Representatives of the Little River Sand & Gravel Development twice conferred with the Shreveport, Louisiana, office of the War Production Board prior to the purchase of the steel, concerning comprehensive changes in plant equipment. They were advised that, whether a change of all machinery or the purchase of this steel for a new barge was contemplated, an application must be made, but this method was not used and the partnership wrongfully extended its customer's rating. Such actions by this partnership must be deemed wilful violations of Priorities Regulation

This wilful violation of Priorities Regulation No. 3 has diverted scarce materials to uses unauthorized by the War Production Board. In view of the foregoing facts, It is hereby ordered, That:

§ 1010.307 Suspension Order No. S-307. (a) Neither the Little River Sand & Gravel Development, nor Sidney G. Myers, Joseph G. Sellwood, or Richard M. Sellwood, Jr., its and their successors or assigns, nor any other person, shall, directly or indirectly, order, purchase, accept delivery of, deliver, withdraw from inventory, or in any other manner secure or use material or construction plant to continue or complete construction of any boat, vessel, or water-craft of any description now being built by or for said Little River Sand & Gravel Development, as described, or intended to be used by or for said Little River Sand & Gravel Development, as described, except as specifically authorized in writing by the War Production Board.

(b) Deliveries of material to Little River Sand & Gravel Development, Sidney G. Myers, Joseph G. Sellwood, or Richard M. Sellwood, Jr., its and their successors or assigns, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any orders or regulations of the War Production Board, except as specifically authorized in writing by the War Production Board.

(c) No allocation shall be made to Little River Sand & Gravel Development, Sidney G. Myers, Joseph G. Sellwood, or Richard M. Sellwood, Jr., its and their successors or assigns, of any material, the supply or distribution of which is governed by any order of the War Production Board, except as specifically authorized in writing by the War

Production Board.

(d) Nothing contained in this order shall be deemed to exempt the Little River Sand & Gravel Development, Sidney G. Myers, Joseph G. Sellwood, or Richard M. Sellwood, Jr., its and their successors or assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board except in so far as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on May 14, 1943, and shall expire on August 14, 1943, at which time the restrictions contained in this order shall be of no

further effect.

PART 1010—Suspension Orders
[Suspension Order S-314]

FREEMAN-LOS ANGELES BARBER AND BEAUTY SUPPLY CO.

Freeman - Los Angeles Barber and Beauty Supply Company, Los Angeles, California, is an individual proprietorship owned by Albert Freeman, engaged in selling barber and beauty shop equipment. On or about July 22, 1942, the company placed a purchase order with its supplier for thirty-six H. D. Progenic Clippers, certifying that such purchase order was entitled to a preference rating of A-1-i under a PD-3A certificate which it had received. At the time this pur-chase order was placed, the company knew that the PD-3A certificate had been cancelled and that it was not entitled to extend this preference rating on its purchase order. The company's use of such preference rating was therefore improper and its certification constituted a misrepresentation to its supplier and to the War Production Board. In view of the foregoing, It is hereby ordered,

§ 1010.314 Suspension Order No. S-314. (a) Deliveries of material to Albert Freeman, individually or doing business as Freeman-Los Angeles Barber and Beauty Supply Company, or otherwise, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other orders or regulations of the War Production Board, except with the written approval of the Regional Compliance Chief, San Francisco Regional Office, War Production Board.

(b) No allocation shall be made to Albert Freeman, individually or doing business as Freeman-Los Angeles Barber and Beauty Supply Company, or otherwise, of any material the supply or distribution of which is governed by any order of the War Production Board, except with the written approval of the Regional Compliance Chief, San Francisco Regional Office, War Production Board.

(c) Nothing contained in this order shall be deemed to relieve Albert Freeman, individually or doing business as Freeman-Los Angeles Barber and Beauty Supply Company, or otherwise, from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on May 17, 1943, and shall expire on August 17, 1943, at which time the restrictions contained in this order shall be of no

further effect.

THE MAY COMPANY

The May Company operates a department store in Los Angeles, California. Subsequent to December 5, 1942, the effective date of Conservation Order L-41 as amended, The May Company began construction, or permitted construction to be begun for its benefit, in excess of \$200.00, the limit permitted under the Conservation Order. The May Company ordered, purchased and withdrew from inventory materials to begin this construction in connection with the remodeling and rehabilitation of its store located at Eighth and Broadway Streets in Los Angeles, California. The estimated cost of this construction approximated \$6,500.00. At the time that this remodeling and rehabilitation was begun, The May Company employed an architect and was familiar with the provisions of Conservation Order L-41. The beginning of construction as aforesaid constituted a wilful violation of Conservation Order L-41.

This wilful violation of Conservation Order L-41 has diverted scarce materials to uses not authorized by the War Production Board. In view of the foregoing, It is hereby ordered. That:

§ 1010.318 Suspension Order No. S-318. (a) Neither The May Company, its successors or assigns, nor any other person, shall order, purchase, accept delivery of, withdraw from inventory or in any manner secure or use material or construction plant in order to begin construction or to continue construction, including but not limited to maintenance and repair, on the premises situated at Eighth and Broadway in Los Angeles, California, operated by The May Company as a department store, except as specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve The May Company, its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent

PART 3175-REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN [Direction 1 to CMP Reg. 5]

HOW TO OBTAIN ALUMINUM UNDER CMP

The following direction is hereby issued pursuant to \$3175.5, CMP Regulation No. 5:

(a) The word "patterns" as used in the following instructions means only match plates, patterns, core boxes, core driers, and snap flasks made of aluminum. It does not include such items as jigs, fixtures, or forming blocks.

(b) Patterns (including finished aluminum patterns) are castings under CMP and hence controlled materials.

(c) When the purchaser of a pattern furnishes the pattern foundry with all the required weight of aluminum in the form of

obsolete or defective patterns:

(1) No preference rating or CMP allotment symbol, number or certification is required on the order to the foundry or to the

pattern maker;

(2) Any foundry may remelt aluminum scrap in the form of obsolete or defective patterns furnished by the prospective pur-chaser of the new pattern (and only such type of aluminum scrap) without prior authorization; and

old possible, (3) Wherever patterns should be used to make new patterns.

(d) When the purchaser of a pattern does not furnish all the aluminum, he may place an authorized controlled material order for aluminum patterns by affixing the symbol MRO on his order and the certification set forth in CMP Regulation No. 7, executed as provided in that regulation, provided that his orders for patterns in any calendar quarter do not exceed by more than 600 pounds the amount of obsolete or defective aluminum patterns supplied by him during such quarter to a pattern foundry for use in making his patterns. In the event that a purchaser of aluminum patterns requires in any quarter more than 600 pounds of patterns in excess of the weight of those turned in by him in that quarter as provided in the previous sentence, he may apply for an allotment for the excess by letter to the Aluminum and Magnesium Division of the War Production Board, Washington, D. C. Ref: Patterns, Such letter must show:

(1) The weight of aluminum patterns applied for during the particular quarter (that is, the weight of aluminum required over and above (i) the weight of his obsolete or defective patterns available for remelting in the particular quarter or already turned in to his pattern foundry during the particular quarter for remelting into new patterns, plus (ii) 600 pounds which is available without specific authorization). For example, if

the applicant requires 1,000 pounds of aluminum patterns for the third quarter of 1943 and intends to turn in 100 pounds of obsolete or defective aluminum patterns to his pattern foundry for remelting in that quarter, he should apply for 300 pounds, that is 1,000 pounds less the 100 pounds turned in and the 600 pounds available without specific authorization; and

(2) The weight of obsolete or defective aluminum patterns which will be or have been supplied by the applicant to the pattern foundry making his patterns during the quarter covered by the application, and why the applicant will be unable to turn in addi-

tional amounts of such old patterns.

(e) If the application is granted, the applicant will receive an allotment and may place an authorized controlled material order for the amount of aluminum patterns covered by the allotment by endorsing his purchase order with the symbol contained on the al-lotment and with a certification described in CMP Regulation No. 7, executed as provided in that regulation.

(f) Pattern manufacturers are hereby authorized to use the MRO symbol endorsed on their customers' orders to obtain aluminum pattern castings. Pattern manufacturers are

pattern castings. Pattern manufacturers are not required to apply for an allotment of aluminum notwithstanding anything to the contrary in any CMP regulation.

(g) Pattern purchasers and pattern manufacturers, when using the MRO symbol to obtain aluminum patterns, are not subject to the 100-pound limitation provided in paragraph (c) (2) of CMP Regulation No. 5 reagraph (c) (2) of CMP Regulation No. 5 relating to purchases of aluminum. Foundries fill only authorized controlled material orders for aluminum patterns (except as provided in paragraph (c) above,) which they may recognize by the symbol MRO and the certification described in CMP Regulation No. 7

(h) The foregoing direction also applies to a company which makes its own aluminum patterns. Except as provided in paragraph (c) above, every such company places authorized controlled material orders on its own pattern foundry so that the foundry may make delivery of the patterns.

(i) Nothing in this direction shall be construed to relieve any person from complying with the provisions of paragraphs (c) (4) (v) and (e) (1) of Supplementary Order M-1-i. Pattern foundries, and not the purchaser or user, must file Forms CMP-19 and CMP-24

(j) This direction supersedes the instructions relating to acquisition of aluminum for the manufacture of patterns set forth in CMPL-196, dated April 13, 1943.

Issued this 13th day of May 1943. WAR PRODUCTION BOARD, By J. JOSEPH WHELAN, Recording Secretary.

PART 1364-FRESH, CURED AND CANNED MEAT AND FISH

RETAIL CEILING PRICES FOR BEEF, VEAL, LAMB AND MUTTON CUTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 355 is amended in the following respects:

1. The following sections and headnotes are added to Article III of the Table of Contents:

SEC. 25 Appendix C: Skeletal chart for making standard beef retail cuts.

SEC. 26 Appendix D: Chart of retail veal cuts and the wholesale cuts from which they are obtained.

SEC. 27 Appendix E: Chart of retail lamb and mutton cuts and the wholesale cuts from which they are obtained.

2. Section 8 is amended to read as follows:

SEC. 8 Post your ceiling prices. Not later than June 15, 1943, you must post at your store your "O. P. A. List of Retail Ceiling Prices for Meat". You may use an exact copy of the O. P. A. List as long as the printing is just as legible and at least as large. Put it on, at or near the counter of the meat department in your store in one or more places where your customers can easily see and read it. You must have at least one list posted for each 20 feet of meat counter space. You must get your official copies of the price list for posting or copying from your War Price and Rationing Board or from your district O. P. A. Office. If you display any cut of beef, veal, lamb or mutton, as in your show case, you must put on it your selling price for that cut. (7) "Packaged drug priced under the General Maximum Price Regulation" 1 means a packaged drug for which a maximum price for sales by the manufacturer was established under the General Maximum Price Regulation prior to May 12, 1943.

(8) "Old packaged drug" means a packaged drug which is produced by or for the same manufacturer as a new, changed-size or changed packaged drug and for which maximum prices for sales by the manufacturer were established under the General Maximum Price Regulation prior to May 12, 1943, or, prior to pricing the new, changed-size or changed packaged drug, were established under this or any other applicable regulation now issued or which may be issued by the Office of Price Administration.

(14) "Difference in form of quantity unit" means a change, for example, from a tablet to a capsule or from a liquid to a solid.

(15) "Difference in container" means a difference in the actual container (such as bottle, carton, tube, can, etc.), the closure, or the carton.

(16) "Most comparable packaged drug" means the old packaged drug selected by the procedure set forth below. The steps in the procedure of selection are to be applied in the order listed until only one old packaged drug is left which is "the most comparable packaged drug". If any step eliminates all the old packaged drugs selected by the preceding step in the list, there shall be applied to such old packaged drugs the first succeeding step in the list which will select at least one such old packaged drug.

(i) The manufacturer shall first select his old packaged drugs which belong to the same general class (proprietary medicine or other drug) as the new packaged drug; and as to which the manufacturer performs the same functions (packaging and distributing, distributing finished product packaged by another) as for the new packaged drug;

(ii) Then from these he shall select those which belong to the same subsidiary class (pharmaceutical specialty, non-specialty pharmaceutical, household staple family medicine, private brand line) as the new packaged drug;

Such base price may be a price such as the following: a suggested retail price, a price to retailers, a price to physicians, a price to wholesalers. In the case of an old packaged drug, the base price and discounts and allowances to be used shall be those in effect at the time the maximum prices for sales of such old packaged drug by the manufacturer were first established. If the list price varies according to the quantity sold, the list price used shall be the list price for sales of the smallest

(18) "Suggested price" means the suggested price in effect on May 12, 1943, or, if the packaged drug is one which has a uniform maximum price for sales by wholesalers to retailers or by retailers to individual ultimate consumers estab-

(19) "Unit direct cost" means the sum of the costs for a single packaged drug of direct labor and materials, computed on the basis of the wage rates, material costs, and operating conditions defined below: Provided, That, if the packaged drug is purchased in packaged form from a private formula manufacturer, the unit direct cost is the net delivered cost per package of the packaged drug not in excess of the applicable maximum price therefor.

(i) Wage rates. The wage rates used in the computation shall be no higher than the average wage rates in effect in the manufacturer's plant at the time a packaged drug is being priced under this regulation for each class of labor used.

(ii) Material costs. Material costs used in the computations shall be no higher than the maximum price at the time a packaged drug is being priced under this regulation for each material used as established under any regulation now issued or which may be issued by the Office of Price Administration. Where the maximum price for any such material may vary with the seller, the maximum price used in the computation shall be the maximum price of that seller who supplied the largest amount of such material to the manufacturer during the six-month period immediately preceding the time a packaged drug is being priced under the regulation, or lacking such a seller, the maximum price of the manufacturer's potential supplier thereof. If the material has no maximum price, or if the actual purchase price is lower, the actual purchase price shall be used.

Where the material whose cost is being determined is tax paid alcohol, the price specified above shall be the price for such alcohol, fully tax paid without drawback, less the following amounts:

(a) If the material costs are being determined for an old packaged drug whose maximum price was established prior to November 1, 1942, or whose maximum price as established since that date under this regulation is the same as the maximum price of a packaged drug sold under the same name whose maximum price was established prior to November 1, 1942, \$2.00 per proof gallon.

(b) If material costs are being determined for any other packaged drug, \$3.75 per proof gallon.

(iii) Operating conditions. The computation shall be made on the basis of the production technique employed in the plant at the time a packaged drug is being priced and on the basis of the actual volume of production of the old packaged drug and the contemplated volume of production of the packaged drug being priced.

(20) "Trade practices" includes credit practices and practices relating to the payment of transportation costs.

SEC. 6 Manufacturers' determination of maximum prices for new packaged drugs-(a) Determination by manufacturer-(1) Manufacturers' base price. The manufacturer of a new packaged drug shall determine a base price for such packaged drugs as follows:

(i) Select the most comparable pack-

aged drug.

(ii) Calculate the unit direct cost of such most comparable packaged drug.

(iii) Calculate the unit direct cost of the new packaged drug.

- (iv) Divide the base price of the most comparable packaged drug by its unit direct cost.
- (v) Multiply the unit direct cost of the new packaged drug by the multiplier obtained in subdivision (iv). The result, or any lower figure selected by the manufacturer, is the base price for the new packaged drug.
- (2) Manufacturers' maximum prices. The maximum price for sales by the manufacturer of a new packaged drug to any class of purchasers is the price obtained by applying to the base price of such packaged drug the same discounts and allowances as would have been applied to the base price of the most comparable packaged drug to determine his maximum price for sales of such most comparable packaged drug to a purchaser of the same class, or any lower price selected by the manufacturer.
- (3) Wholesalers' maximum prices for sales to retailers. The manufacturer of a new packaged drug shall establish a uniform maximum price for sales thereof by wholesalers to retailers in the smallest quantity where the new packaged drug is to be distributed through wholesalers.

The uniform maximum price for sales by wholesalers to retailers in the smallest quantity shall be the price obtained by applying to the base price of the

^{*7} F.R. 10343.

new packaged drug the same trade discount or markup as the manufacturer applied to the base price of the most comparable packaged drug to determine his suggested price for sales of such most comparable packaged drug by wholesalers to retailers in the smallest quantity

Where there is no manufacturer's suggested price for sales of the most comparable packaged drug by wholesalers to retailers, the uniform maximum price for sales of a new packaged drug by wholesalers to retailers in the smallest quantity shall be a price which bears the same relationship to the base price thereof as the price generally charged by wholesalers to retailers for sales of the most comparable packaged drug in the smallest quantity bears to the base price thereof.

(4) Retailers' maximum prices for sales to individual ultimate consumers. The manufacturer of a new packaged drug shall establish a uniform maximum price for sales thereof by retailers to individual ultimate consumers where the new packaged drug is to be sold by retailers to individual ultimate consumers.

The uniform maximum price for sales by retailers to individual ultimate consumers shall be the price obtained by applying to the base price of the new packaged drug the same trade discount or markup as the manufacturer applied to the base price of the most comparable packaged drug to determine his suggested price for sales of such most comparable packaged drug by retailers to individual ultimate consumers.

Where there is no manufacturers' suggested price for sales of the most comparable packaged drug by retailers to individual ultimate consumers, the uniform maximum price for sales of a new packaged drug by retailers to individual ultimate consumers shall be a price which bears the same relationship to the base price thereof as the price generally charged by retailers to individual ultimate consumers for sales of the most comparable packaged drug bears to the base price thereof.

(b) Application by manufacturer—(1) Where a maximum price to a class of purchasers cannot be determined under paragraph (a). Where the manufacturer cannot determine a maximum price for sales by him of a new packaged drug to a particular class of purchasers under paragraph (a) above, he shall apply in writing to the Office of Price Administration in Washington, D. C. for determination of a maximum price to that class of purchasers. Such application shall clearly describe such class of purchasers and point out the difference from the most nearly similar class of purchasers for sales to whom a maximum price has been determined under paragraph (a). Determination of a maximum price under this subparagraph (1) may be made by the Price

Administrator by letter.
(2) Where manufacturer has no most comparable packaged drug. (i) Where the manufacturer has no most comparable packaged drug, the maximum

prices for sales of a new packaged drug shall be maximum prices in line with the level of maximum prices established by this regulation, specifically authorized by the Price Administrator by letter or otherwise.

(ii) Application for determination of maximum prices for sales of such new packaged drug to all classes of purchasers shall be made in writing to the Office of Price Administration, Washington, D. C. by the manufacturer who shall submit with such application the information required by the form set out in section 22

in section 22.

(3) Special research and development costs. (i) Where, because of extraordinary development and research expenses or patent or like royalty charges specifically applying to a new packaged drug, the pricing formula set out in section (6) (a) does not result in maximum prices in line with the level of maximum prices otherwise established by this regulation, the manufacturers may apply to the Office of Price Administration for maximum prices therefor different from those established by section 6 (a).

(ii) Application for determination of maximum prices for sales of such new packaged drug to all classes of purchasers shall be made in writing to the Office of Price Administration, Washington, D. C. by the manufacturer who shall submit with such application the information required by the form set out in

section 22.

Sec. 7 Manufacturers' determination of maximum prices for changed-size packaged drugs containing decreased quantity—(a) General rule. The manufacturer of a changed-size packaged drug which contains a number of quantity units of drug less than that contained in one or more sizes of an old packaged drug sold under the same name shall determine all the maximum prices for such changed-size packaged drug that he is required to determine for a new packaged drug under section 6.

The base price for such changed-size packaged drug shall be the base price of the next larger size of the old packaged drug sold under the same name reduced proportionately to the reduction in the number of quantity units. Maximum prices for such packaged drug shall be those determined by the method set forth in section 6 using the next larger size of the old packaged drug sold under the same name as the most comparable packaged drug and the base price determined above in place of that specified in section 6 (a) (1). At the manufacturer's option the base price of the changedsize packaged drug may be the base price of the next smaller size of the old packaged drug sold under the same name, in which case such next smaller size of the old packaged drug shall be used as the most comparable packaged drug in determining maximum prices by the method set forth in section 6.

(b) Exception. Where the decrease in the number of quantity units is made necessary by circumstances beyond the manufacturer's control, the maximum price for sales by any seller to any class of purchasers of a changed-size packaged drug which contains a number of quantity units of drug which is not less than ninety-seven per cent of the number of quantity units of drug contained in the next larger size of the old packaged drug sold under the same name shall be the maximum price established for sales by such seller to a purchaser of the same class of the next larger size of the old packaged drug sold under the same name.

This exception shall only be applicable if prior to making the decrease the manufacturer has submitted by registered mail to the Office of Price Administration in Washington, D. C. a statement of the circumstances necessitating a decrease and he has not received within twenty days of mailing his statement a written notice from the Office of Price Administration that this exception will not be

applicable to such decrease.

SEC. 8 Manufacturers' determination of maximum prices for changed-size p a c k a g e d drugs containing increased quantity—(a) General rule. The maximum price for sales by any seller to any class of purchasers of a changed-size packaged drug containing a larger number of quantity units of drug than the largest size of the old packaged drug sold under the same name shall be the maximum price established for sales by him to a purchaser of the same class of the largest size of the old packaged drug sold under the same name.

(b) Exception. Where the number of quantity units of drug exceeds by more than twenty percent the number of quantity units contained in the largest size of the old packaged drug sold under the same name, maximum prices there-for may, at the manufacturers' option, be those established under the provisions of section 6, using the largest size of the old packaged drug sold under the same name as the most comparable packaged drug: Provided, That in no case shall the base price so established for a changedsize packaged drug exceed the base price of the largest size of the old packaged drug increased proportionately to the increase in the number of quantity units minus twenty percent of the base price of such largest size of the old packaged

SEC. 9 Manufacturers' determination of maximum prices for changed packaged drugs—(a) General rule. The maximum price for sales by any seller of a changed packaged drug to any class of purchasers shall be the maximum price established for sales by him to a purchaser of the same class of the same size of the old packaged drug sold under the same name.

(b) Exceptions.—(1) Change in formula resulting in decrease of material costs for ingredients. Where as a result of a change in formula the material cost for ingredients per quantity unit of a changed packaged drug is less than ninety percent of the material cost for ingredients per quantity unit of the same size of the old packaged drug sold under

the same name, maximum prices for such changed packaged drug shall be those established under the provisions of Sec. 6, using the same size of the old packaged drug sold under the same name as the most comparable packaged drug: Provided, That, if the formula of the same size of the old packaged drug has previously been changed since May 26, 1943, this exception shall be applicable if the total decrease in the material cost of ingredients per quantity unit due to changes in formula exceeds ten percent.

Material costs under this exception shall be computed in the manner set forth in section 1 (a) (19) (ii) on the bases of the operating conditions speci-

fled in section 1 (a) (19) (iii).

(2) Difference in form of quantity unit. Maximum prices for a changed packaged drug which differs in the form of quantity unit from the same size of the old packaged drug sold under the same name shall be those determined under the provisions of section 6.

SEC. 10 Manufacturers' adjustment to lower maximum prices. The manufacturer of a packaged drug for which uniform maximum prices for sales by wholesalers to retailers or for sales by retailers to individual ultimate consumers has been established under sections 6 through 10 of this regulation or of a packaged drug which is sold under the same name as such a packaged drug, and under this regulation has the same maximum prices as such packaged drug, may at any time establish lower maximum prices for sales of any such packaged drug by retailers to individual ultimate consumers or by wholesalers to retailers if at the same time he establishes proportionately lower maximum prices for sales thereof by all other sellers prior in the chain of distribution.

If the manufacturer adjusts maximum prices under this section, the lower maximum prices shall apply to all resellers' sales of such packaged drug delivered to them after such lower maximum prices are established and to all sales of the packaged drug by the manufacturer after such lower maximum prices are established.

SEC. 11 Reports of maximum prices determined by manufacturer. (a) Where manufacturer has determined a changed maximum price under the provisions of sections 6 through 9 of this regulation for his sales of a packaged drug he shall, before making any delivery of such packaged drug, submit by registered mail to the Office of Price Administration in Washington, D. C. a report containing the information required by the form set forth in section 22.

(b) Where a manufacturer has determined maximum prices for a packaged drug under section 10, he shall file with the Office of Price Administration in Washington, D. C., a report showing the original and lowered maximum prices for sales by all sellers of such packaged

(c) Sales or deliveries at prices not in excess of those proposed may be made by the manufacturer subsequent to mailing the report required by paragraphs (a) or (b) to the Office of Price Administration. If, at the expiration of twenty days from the date of mailing the report, the manufacturer has not received from the Office of Price Administration written disapproval of the proposed maximum prices, the proposed maximum prices shall be considered as approved.

(d) The Price Administrator may by letter or otherwise adjust any such reported prices (but not retroactively) which he finds are not in conformity with the provisions of this regulation or which he determines to be excessively high. Unless a written disapproval of the reported prices is mailed to the manufacturer not more than twenty days after the mailing of the report by him, any such adjustment may only be made after giving the manufacturer notice and a reasonable opportunity to present additional evidence.

(1) The maximum price for sales by a retailer to any class of purchasers of a packaged drug for which a uniform maximum price for sales by retailers to individual ultimate consumers has been established under sections 6 through 10 of this regulation which the manufacturer is required to mark on the package under section 13 or of which he is required to furnish notification under section 12, shall be the price obtained by applying to such uniform maximum price for sales by retailers to individual ultimate consumers the customary discounts, allowances, and trade practices in effect on his sales to a purchaser of the same class during April 1943 of the packaged drug most nearly like the packaged drug being priced or, if he did not sell such packaged drug during April 1943, during the first month thereafter in which he sold such packaged drug.

(2) The maximum prices established for a retailer's sales of a packaged drug under subparagraph (1) above or under section 5 shall apply to his sales of a changed-size or changed-packaged drug sold under the same name and which under sections 7, 8 or 9 of this regulation has the same maximum prices as the first mentioned packaged drug.

SEC. 15 Federal and state taxes. Any tax upon, or incident to, the sale or delivery of any packaged drug for which maximum prices are established by this regulation imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, or any increase in such tax, shall be treated as follows in determining the seller's maximum price for such packaged drug and in preparing the records of such seller with respect thereto:

If the statute or ordinance imposing such tax or increase does not prohibit the seller from stating and collecting the tax or increase separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax or increase actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased: *Provided*. That:

(1) If the maximum price for a packaged drug as established under this regulation is the same as the maximum price established under the General Maximum Price Regulation for the same packaged drug or for a packaged drug which differs therefrom in respects which do not require a price change under this regulation, such amount may only be collected if at the time a maximum price under the General Maximum Price Regulation was established such amount was not included in the maximum price so established.

(2) If the maximum price under this regulation is determined by reference to a most comparable or old packaged drug, such amount may only be collected

if it is not included in the comparable price of such most comparable or old packaged drug.

SEC. 16 Prohibited practices — (a) General. Any practice which is a device to obtain the effect of a higher than ceiling price without actually raising the dollar-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings, transactions with or through the agency of subsidiaries or affiliates, or the like.

(b) Specific prohibited practices. The following are among the specific practices prohibited:

(2) Breaking up an order which would normally be a single order into a series of smaller orders in order to evade the maximum price limitations set forth in this regulation.

SEC. '7 Adjustable pricing. Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In appropriate situations where a petition for amendment or for determination of a maximum price requires extended consideration, the Price Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

SEC. 18 Enforcement. Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as amended.

If the person making the sale retains an invoice or a duplicate copy of an invoice containing this information in his files for the specified period, he will have

(d) Wholesalers' filing of discounts and allowances. Each wholesaler of packaged drugs shall before June 25. 1943, prepare and file with the Office of Price Administration in Washington, D. He shall preserve a copy of such schedule for inspection by any representative of the Office of Price Administration.

(2) At the manufacturer's option, maximum prices for such changed-size packaged cosmetic shall be the same as the maximum prices that would be computed under section 6 using the next smaller size of the old packaged cosmetic sold under the same name as the most comparable packaged cosmetic and considering the number of quantity units in the changed-size packaged cosmetic to be the number contained in the next smaller size of the old packaged cosmetic

sold under the same name.

(b) Exception. (b) Exceptions. (1) Where the quantity of cosmetic in the new packaged cosmetic exceeds by more than twenty-five per cent but not more than one-hundred per cent the quantity contained in

(2) Where the quantity of cosmetic contained in the changed-size packaged cosmetic exceeds by more than onehundred per cent the quantity in the largest size of the old packaged cosmetic sold under the same name, the manufacturer may apply in writing to the Office of Price Administration in Washington, D. C. for determination of maximum prices in line with the level of maximum prices established by this regulation for sales of such changed-size packaged cosmetic. The manufacturer of a professional size packaged cosmetic for which a uniform maximum professional price has been established under sections 6 through 10 of this regulation, or of a professional size packaged cosmetic which is sold under the same name as such a packaged cosmetic, and under this regulation has the same maximum prices as such a packaged cosmetic, may at any time establish a lower maximum professional price for sales thereof, if at the same time he establishes proportionately lower maximum prices for sales thereof by all other sellers prior in the chain of distribution.

If the manufacturer adjusts maximum prices under this section, the lower maximum prices shall apply to all resellers' sales of such packaged cosmetic delivered to them after such lower maximum prices are established and to all sales of the packaged cosmetic by the manufacturer after such lower maximum prices are established.

(a) A manufacturer who has determined maximum prices for a packaged cosmetic under sections 6 (a), 7 (a) or 8 (b) (1) of this regulation shall, before making any delivery thereof, submit by registered mail to the Office of Price Administration in Washington, D. PART 1408-GLASS AND GLASS CONTAINERS [MPR 382]

WIDE MOUTH GLASS CONTAINERS

In the judgment of the Price Administrator, it is necessary and proper, in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, to replace the General Maximum Price Regulation and Maximum Price Regulation No. 188 ' with a separate regulation establishing as the maximum prices for wide mouth glass containers the prices prevailing with respect thereto on July 1, 1941.

So far as practical, the Price Administrator has consulted with representatives of the trade which will be affected by this regulation. The maximum prices established by this Regulation are, in the judgment of the Price Administrator, generally fair and equitable and in conformity with the general level of prices prevailing on July 1, 1941. The prices prevailing between October 1 and 15, 1941, have been ascertained and given due consideration by the Administrator, but he has found that those prices are not generally representative because of abnormal market conditions and an inflationary increase in prices on October 1, 1941, so that they are inappropriate from the point of view of the standards set forth in the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

§ 1408.51 Maximum prices for wide mouth glass containers. Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, Maximum Price Regulation No. 382 (Wide Mouth Glass Containers), which is annexed hereto and made a part hereof, is hereby issued.

The term "container" will be used hereafter in this regulation instead of the term "wide mouth glass container," and is to be understood in all cases, except where specifically defined otherwise, as meaning "wide mouth glass conto ner." The term "container," as used in this regulation, shall not in any case be taken to mean a shipping case, carton, box, or package for the shipment of wide mouth glass containers or any other commodity. Any such shipping or reshipping carton, case, box, or package will be referred to in this regulation by the term "carton."

The provisions of this regulation shall be applicable to the forty-eight states of the United States and the District of Columbia. This regulation shall apply to all sales of containers which are delivered within the continental United States even though the vendor may be located outside the United States. This regula-tion shall not apply to any deliveries of containers to points outside the continental United States.

The maximum prices for export sales of containers shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation issued by the Office of Price Administration.

The provisions of this regulation supersede the provisions of the General Maximum Price Regulation and of Maximum Price Regulation No. 188 with respect to sales and deliveries for which maximum prices are established by this regulation.

The maximum prices for the sale of cartons as such by or to manufacturers of containers shall be determined in accordance with the provisions of the maximum price regulations issued by the Office of Price Administration applicable to such cartons, including, but not restricted to, Maximum Price Regulation No. 187 and Maximum Price Regulation No. 195.7

SEC. 1.2 Prohibition against the sale of containers at higher than maximum prices. On and after May 27, 1943, regardless of any contract, agreement, lease, or other obligation, no manufacturer shall sell or deliver any containers, as defined in secton 1.11 (a) hereof, and no person shall buy or receive any of the foregoing products in the course of trade or business from a manufacturer, at prices higher than the maximum prices set forth in this regulation, and no person shall agree, offer, solicit, or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of containers to a purchaser if prior to May 27. 1943, such containers had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

SEC. 1.3 Permission to sell containers at less than maximum prices. Lower prices than those set forth in this regulation may be charged, demanded, paid, or offered.

SEC. 1.4 Requirement of maintenance of standard quality in containers. No container shall be reduced in quality below its quality as of July 1, 1941, which requires the maintenance of commercial quality as defined in section 1.11 (a) (5) below, unless the price is likewise and proportionately reduced.

(b) Shipments in less-than-carload quantities. On shipments of less-than-carload quantities of containers the manufacturer may add to the base price the same zone differential, if any, which was or would have been added by the manufacturer on such shipment to a purchaser of the same class on July 1, 1941.

Sec. 2.6 Transportation practices and charges—(a) General. Shipments of containers under this regulation may be made f. o. b. shipping point. In such cases, while the purchaser may make the actual payment of the freight charges, the burden of those charges is to be borne by the seller wherever a freight allowance is required under paragraphs (b) and (c) below. Notwithstanding the rules set forth below, the manufacturer need not allow more for freight in any instance than is actually paid by the purchaser.

(b) Carload and pool car shipments—
(1) Delivery service to be performed by the manufacturer without charge. It is the manufacturer's obligation to bear the financial burden of the movement of the shipment to the point of delivery. If shipment is by rail, water, or by rail and water, the point of delivery is the rail siding or unloading dock nearest the point designated by the purchaser. If the shipment is by truck, the point of delivery is any point served by the motor carrier and designated by the purchaser.

(2) Delivery services for which the manufacturer may make a separate

charge. (i) If the manufacturer delivers a shipment beyond the point of delivery, as defined in the preceding paragraph, he may make a separate charge for such service not in excess of the cost to him for the performance of such services.

(ii) Where a stop-over in transit, as defined in section 1.11 (a) herein, is made at the request of the purchaser, the maufacturer may make a separate charge to the purchaser of the amount, if any, paid by the manufacturer for the stop-over in transit, and the manufacturer need make no allowance for such a charge when it has been borne by the murchaser.

(c) Less-than-carload shipments. On shipments of containers in a less-than-carload quantity, the manufacturer may, in arriving at the maximum price, add to the sum of the base prices and the zone price differentials a transportation charge not in excess of the proportion of total freight which was or would have been charged by the manufacturer for such shipment to a purchaser of the same class on July 1, 1941.

Article III—Maximum Prices for the Western Area

SEC. 3.1 Application. The provisions of this article shall apply to all sales of containers in which the destination is within the Western Area. Under the arrangement of this Regulation, maximum prices of containers moving to destinations within the Western Area are regulated by both Article III and Article IV hereof, and the base prices for such containers appear in section 5.2 of Article V.

The Western Area shall include the States of California, Arizona, Utah, Nevada, Oregon, Washington, Idaho; and in Montana, all Counties west of and including the Counties of Hill, Chouteau, Cascade, Lewis and Clark, Broadwater and Gallatin; and in Wyoming, all Counties west of and including the Counties of Park, Hot Springs, Fremont and Sweetwater.

SEC. 3.2 Computation of maximum prices. The maximum prices established herein afford compensation to the manufacturer not only for the sale of the containers involved, but also for certain transportation services. To compute the maximum prices for containers the manufacturer should determine the classification of purchaser to whom he is selling in accordance with the provisions of section 3.3 below. He should then ascertain the base price for the containers being sold applicable to that classification of purchaser. These base prices are set forth in the tables in section 5.2 of Article V below. To the base prices so determined, the manufacturer may add such transportation charges as are specifically permitted to be added under the provisions of section 3.4 below. The aggregate of the foregoing charges constitutes the maximum price. The manufacturer may, however, make additional charges for new moulds, for purchases of limited quantities of nonstock items, for printing cases in limited lots, for furnishing non-stock cases in limited quantities, and for rendering other services, if he computes such charges in accordance with the provisions of Article IV of this Regulation.

SEC. 3.3 Classification of purchasers. Purchasers are classified for the purpose of determining Western Area maximum prices on containers in accordance with the following classifications:

(a) Sales of standard containers. Purchasers are classified for the purpose of determining Western Area maximum prices at each time of ordering, on the basis of the amount ordered at that time, in one of the four following classes:

(1) a purchaser ordering 1000 cases or more for delivery at one time;

(2) a purchaser ordering 100 or more, but less than 1000 cases for delivery at one time;

(3) a purchaser ordering 100 or more, but less than 500 cases for delivery at one time;

In such cases, while the purchaser may make the actual payment of the freight charges, the burden of those charges is to be borne by the seller wherever a freight allowance is required under paragraphs (b) (c) and (d) below. Notwithstanding the rules set forth below, the manufacturer need not allow more for freight in any instance than is actually paid by the purchaser.

(1) Delivery service to be performed by the manufacturer without charge. It is the manufacturer's obligation to bear the financial burden of the movement to the point of delivery of carload or pool car shipments (and of less-thancarload shipments, to the points named in paragraph (b) below). If shipment is by rail, water, or by rail and water, the point of delivery is the rail siding or unloading dock nearest the point designated by the purchaser. If the shipment is by truck, the point of delivery is the point served by the motor carrier and designated by the purchaser.

(2) Delivery services for which the manufacturer may make a separate charge. (i) If the manufacturer delivers a shipment beyond the point of delivery, as defined in the preceding paragraph, he may make a separate charge for such services not in excess of the cost to him for the performance of such services.

(ii) Where a stop-over in transit, as defined in section 1.11 (a) hereof, is made at the request of the purchaser, the manufacturer may make a separate charge to the purchaser of the amount, if any, paid by the manufacturer for the stop-over in transit, and the manufacturer need make no allowance for such charge when it has been borne by the

The original petition in the above-entitled matter was filed with the Division on March 20, 1943, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 15. Petitioner requests that no permanent price classifications or minimum prices be established for the coals of the Taylor Mine (Mine Index No. 1675), located in Putnam County, Missouri, pending the entry of a final order in Docket No. A-179.

Petitioner alleges that the coals produced from the Taylor Mine are analogous to the coals produced from other mines in Putnam County, Missouri, and, in view of the fact that the latter coals are presently subject to temporary minimum prices established in Docket No. A-179, requests that no permanent price classifications and minimum prices be established for the coals of the Taylor Mine pending a final determination in that matter.

It appears that a reasonable showing of necessity has been made for the

granting of the relief prayed for by petitioner. However, in view of the fact that petitioner requests only the temporary establishment of price classifications and minimum prices for the coals of the Taylor Mine, it is deemed advisable to sever that portion of Docket No. A-1914 relating to such coals from the remainder of the docket and to designate the severed portion as Docket No. A-1914, Part II.

Now, therefore, it is ordered, That that portion of Docket No. A-1914 relating to the coals of the Taylor Mine (Mine Index No. 1675), of Tom Taylor in Putnam County, Missouri, Production Group 3 in District No. 15 be, and it hereby is, severed from the remainder of that docket and designated Docket No. A-1914, Part II.

It is further ordered, That pending final disposition of Docket No. A-1914, Part II, temporary relief is granted as follows: Commencing forthwith, the Schedule of Effective Minimum Prices for District No. 15 For Truck Shipments is supplemented to include the price classifications and minimum prices set forth below for the coals of the Taylor Mine (Mine Index No. 1675), of Tom Taylor, for shipment by truck into all market areas.

JOE AND WALTER SOPINSKI

MEMORANDUM OPINION AND ORDER TO CEASE
AND DESIST

In the matter of Joe Sopinski and Walter Sopinski, individually and as copartners, doing business under the name and style of Joe and Walter Sopinski, code members.

On February 23, 1943, after notice and hearing, W. A. Cuff, a duly designated Examiner of the Division submitted a Report in which he found that code members Joe Sopinski and Walter Sopinski, individually and as copartners, doing business under the name and style of Joe and Walter Sopinski, a partnership operating the White Oak Mine (Mine Index No. 1826) in Tuscarawas County, Ohio, wilfully violated:

Section 4 II (e) of the Bituminous Coal Act of 1937 the corresponding section of the Bituminous Coal Code, and the Schedule of Effective Minimum Prices for District No. 4 for Truck Shipments,

(a) By selling and delivering from January 1, 1941, to December 31, 1941, 1331 tons of 34" lump coal at a price of \$2.25 per net ton f. o. b. the mine, whereas the effective minimum price for such coal was \$2.35 per net ton f. o. b. the mine.

(b) By selling and delivering from February 1, 1942, to March 31, 1942 to Delmar Baer 389.65 tons of 1" slack coal at \$1.80 per ton f. o. b. the mine whereas the effective minimum price for such coal was \$1.90 per ton f. o. b. the mine.

The Examiner recommended that an order be issued directing code members to cease and desist from violating the provisions of section 4 II (e) of the Act and the Schedule of Effective Minimum Prices for District No. 4 for Truck Shipments, or from otherwise violating the Act, the Code or rules and regulations thereunder.

Opportunity was afforded to all parties to file exceptions to the Examiner's Report. No exceptions have been filed.

I have considered the Report of the Examiner and I find that it adequately and accurately reflects the evidence disclosed in the record. Upon the basis of the proposed findings of fact, proposed conclusions of law and recommendation set forth in the Report and upon the entire record in this proceeding.

It is hereby ordered, That the proposed findings of fact and the proposed conclusions of law of the Examiner are approved and adopted as the findings of fact and conclusions of law of the Director.

It is further ordered, That Joe Sopinski and Walter Sopinski, individually and as copartners, doing business under the name and style of Joe and Walter Sopinski, operating the White Oak Mine (Mine Index No. 1826) in Tuscarawas County, Ohio, their agents, employees, representatives, successors and assigns, and all persons acting or claiming to act on their behalf or interest, cease and desist from violating section 4 II (e) of the Act, the corresponding section of the Code and the Schedule of Effective Minimum Prices for District No. 4 for Truck Shipments, or from otherwise violating the provisions of the Act, the Code or orders, rules and regulations issued thereunder.

Notice is hereby given that upon failure or refusal to comply with this order, the Division may apply to a United States Circuit Court of Appeals for the enforcement thereof, or may otherwise proceed as authorized by the Act.

[Docket No. A-1521] DISTRICT BOARD 7

ORDER CORRECTING OPINION OF THE DIRECTOR

In the matter of the petition of District Board No. 7 for changes in the minimum prices and price classification for coals of Eccles No. 5 Mine, Mine Index No. 62, of the Crab Orchard Improvement Company in Size Group Nos. 1 and 2.

On December 1, 1942, 7 F.R. 10425, the Director issued a Memorandum Opinion and Order in Docket No. A-1521 establishing price classification "A" for the coals produced at the Eccles No. 5 Mine (Mine Index No. 62) of the Crab Orchard Improvement Company, in District 7, in Size Groups 1 and 2.

On December 30, 1942, Bituminous Coal Consumers' Counsel filed a motion requesting the Director to eliminate the following statement in said opinion:

The Consumers' Counsel contended that if the structure of the coals of Eccles No. 5 Mine had improved to such an extent that Size Groups 1 and 2 should have a new classification, then Size Groups 8 and 9 slack coal for this mine should also be reclassified.

Upon re-examination of the record I find that this contention should not have been attributed to Consumers' Counsel.

The record discloses, however, that inquiry was made at the hearing with respect to reclassification of the slack sizes (Size Groups 8 and 9) by reason of the improvement in the structure of the coals produced by the Eccles No. 5 Mine, and that the explanation which appears in the opinion herein, to the effect that the analysis of the coal had not changed and that size stability is not a determining factor in the price classification of slack sizes, was made.

Accordingly, reference in the opinion herein to the foregoing inquiry as the contention of Consumers' Counsel should be eliminated. The opinion, therefore, need only be amended by substituting the phrase, "Inquiry was made" in place of "The Consumers' Counsel contended".

Now, therefore, it is ordered, That the motion of Consumers' Counsel is granted to the extent that the reference in the first sentence in the fourth paragraph of the Memorandum Opinion and Order of the Director, dated December 1, 1942, 7 F. R. 10425, to the contention of Consumers' Counsel is eliminated, and is, in all other respects, denied.

It is further ordered, That the said memorandum opinion and order be amended as hereinabove indicated,

Dated: May 11, 1943.

J-Z COAL COMPANY

MEMORANDUM OPINION AND ORDER OF THE DIRECTOR

In the matter of the petition of J—Z Coal Company, a code member producer in District No. 4, for the revision of the minimum prices of coals of Mine Index No. 2950, in Size Groups Nos. 5, 6, and 8 for truck shipments, pursuant to section 4 II (d) of the Act.

This proceeding was instituted upon a petition duly filed with the Bituminous Coal Division by the J—Z Coal Company, a code member in District 4, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petition requested a reduction in the effective minimum prices for certain coals in Size Groups 5, 6, and 8, produced at its mine (Mine Index No. 2950), located in Subdistrict 4 of District 4, Mahoning County, Ohio. District Boards 4 and 6 filed petitions of intervention.

Pursuant to appropriate orders, and after due notice to interested persons, a hearing in this matter was held on August 11, 1942, before Charles S. Mitchell, a duly designated Examiner of the Division at a hearing room thereof at Steubenville, Ohio. Interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. Petitioner and District Board 4 appeared and participated in the hearing.

On September 10, 1942 the Examiner made and entered his Report, in which he found that petitioner's request for a

reduction in effective minimum prices for the "crop" coal produced at its mine was not supported by the evidence. He accordingly recommended that relief be denied. An opportunity was afforded all parties to file exceptions to the Examiner's Report and briefs in support thereof. No exceptions or supporting briefs have been filed.

My consideration of the record discloses that the requested revision in effective minimum prices for the coal produced at petitioner's mine in Size Groups 5, 6, and 8 does not comply with the standards set forth in sections 4 II (a) and (b) of the Act and is not required to effectuate the purposes thereof. Accordingly, I have concluded that the proposed findings of fact and the proposed conclusions of law of the Examiner should be approved and adopted as the findings of fact and the conclusions of law of the Director. Upon the basis of the record in this proceeding, the findings of fact and conclusions of law herein approved and adopted, and pursuant to section 4 II (d)

and other provisions of the Act,
It is hereby ordered, That the relief requested in the petition herein is denied.
